18 publications (8 peer-reviewed), 6 funded projects

ACADEMIC BACKGROUND

Dec 2019 – Apr 2024 Nord University, Bodø, Norway

Doctor of Philosophy in Business

[PhD thesis: “Economic feasibility of commercial transit shipping via the Northeast Passage”](#)

Aug 2014 – Jun 2016 Molde University College-Specialized University in Logistics, Molde, Norway

Master of Science in Logistics

2013 – 2015 Gubkin University (National University of Oil and Gas)

Master of Science in Management

2009 – 2013 Gubkin University (National University of Oil and Gas)

Bachelor of Economics

ADVANCED TRAINING COURSES

Jan – Jun 2023 University Pedagogy - basic course (200 h.), Nord University, Bodø, Norway

WORK EXPERIENCE

Dec 2018 – Present Nord University, Bodø, Norway

Researcher at Business School and High North Center

- [Business Index North](#)/Arctic Business Index project: data analysis, reports and analytical dashboards and digital educational materials development, promotion, and workshops.
- AACSB accreditation
- Teaching MSc courses: Transport & Logistics, Business Analytics, Quantitative Methods.
- Co-supervision of PhD student Mikhail Strukov from the Applied Economics Group
- PhD project and research work with [Centre for High North Logistics](#).

Jun – August 2025 Nord University, Bodø, Norway

Researcher at the Social Faculty

- Participation in the project ArcSolution: literature review development.

May 2024 – May 2025 Maynooth University, Maynooth, Ireland

Postdoctoral Fellow at the School of Business

- Co-led the Marine Institute-funded project “Transitioning the Irish Maritime Industry to Carbon Neutrality by 2050” project.
- Coordinated multi-stakeholder research with policymakers, industry, and academia; conducted 25+ stakeholder interviews; developed socio-economic models and outreach materials.

- *Produced a policy-oriented roadmap for the carbon-neutral Irish maritime industry; disseminated findings to 50+ policymakers and business leaders.*

Sep 2021 – Mar 2022 Delft Technology University, Delft, the Netherlands

Visiting Research Fellow in the Faculty of Mechanical, Maritime and Materials Engineering

- *Development of an academic article under the guidance of Assoc. Prof. Jeroen Pruyn.*
- *Attendance and participation in PhD courses, workshops, seminars, and networking events of the faculty.*

Sep 2016 – Dec 2022 Molde University College, Molde, Norway

Research Fellow in the Faculty of Logistics

- *Assistant coordinator for the Arctic Logistics research project UTF-2016-long-term/10023*
- *Taught MSc courses (Vehicle Routing, Networks Logistics, Mathematical Modelling, Arctic Logistics) and censoring on master level.*
- *Supervised and co-supervised four MSc theses.*

infrastructure. Marine Policy, 145, 105275. <https://doi.org/10.1016/j.marpol.2022.105275>

SKILLS

Computer: Statistics tools: STATA, R, SPSS; Simulation and modelling tools: Arena, AMPL (CPLEX); Visualization tools: Power BI, Adobe Illustrator

Languages: Fluent in English; B2 in Norwegian, Fluent in Russian

OTHER PROFESSIONAL EXPERIENCES

May 2026 Co-chair of session “The Future of Arctic Shipping” at the UArctic Congress Torshavn, The Faroe Islands

Mar 2026 Speaker on the group session "Blue Economy in the Arctic", 12th Meeting of the High North Talks, Geneva, Switzerland

Dec 2025	Guest lecturer for Arctic Investment Scenarios workshop, VUB Campus, Brussels
Sep 2025	Speaker on the session "Sustainable Arctic Development: What's Next?", Interreg Northern Periphery and Arctic Connecting the Dots event, Bodø
Apr 2024	Panelist of the panel "Unlocking Arctic Potential: Investing in People", High North Dialogue, Bodø
Mar 2024	Panelist of the panel "Where are all the Arctic jobs?", Arctic Frontiers, and "Inclusive Governance in Shaping Arctic Futures: Empowerment of Youth Leadership", Arctic Youth Conference, Tromsø
Dec 2024–Present	Member of the Marine Working Group at Network of Arctic Researchers in Ireland
Dec 2024	Panelist on the panel "Developments in Technology and the Green Alliance Cooperation", a side event "License to Operate: Sustainable Ocean Development and the Green Transition" at the Arctic Future Symposium in Brussels, Belgium
Apr 2023	Event coordinator for High North Dialogue (HND) Academy (21 participants) in the frame of the HND Conference
Jan – Feb 2023	Emerging Leader of the Arctic region for Emerging Leaders program with the years' theme "the Green Shift", Arctic Frontiers 2023, Tromsø, Norway

VOLUNTEER EXPERIENCE

Sep 2023 – Present	Volunteer of Red Cross, Bodø, Norway
Jan – May 2021	Dance teacher for children of the kids' club, Bodø, Norway

SUPERVISION EXPERIENCE

Co-supervision of PhD Fellow (2023- till now): PhD student, Business School, Applied Economics group

Master's Theses Supervision (Molde University College):

- Fleet Size and Location Inventory Routing Problem for an LPG Distribution Company (2017)
- Analysis of Infrastructure and Transit Cargoes through the Arctic Region (2020)

Co-supervision of Master Theses:

- Analysis of the Throughput of the Northern Sea Route (2022)
- Analysis of Northeast Passage Transit Traffic Using Transshipment Hubs and Simulation Modelling (2022)
